Lake St. Catherine State Park

Lake St. Catherine State Park has long been a destination for visitors seeking an area to relax, refresh and recreate. The 117-acre park has been in operation since it opened as a picnic and swimming area in 1953 on the shore of picturesque Lake St. Catherine. The park offers an array of recreation opportunities for campers and day-use visitors alike. These include a 61-site campground, a nature center, two sandy beaches, a large grassy field including a children's playground and a snack-bar concession with rentals of rowboats, canoes, kayaks and pedal boats. A boat launch is available for those seeking a day of fishing or water skiing on the lake. A short hiking trail offers visitors a tour of the Big Trees of Lake St. Catherine and a breathtaking view of Birdseye Mountain.

Lake St. Catherine provides excellent fishing opportunities for anglers of all skill levels. Panfish, largemouth and smallmouth bass, rainbow and brown trout, yellow perch and northern pike can all be found in the lake's cool waters. Lucky visitors may catch a glimpse of a white-tailed deer or even an occasional moose. Regularly-scheduled interpretive programs are held at the nature center.

Prior to state ownership, the area comprising Lake St. Catherine State Park consisted of a summer camp for boys and farmland. Remnants of these past activities can still be found within the park.

The campground includes 49 tent/trailer sites and 11 lean-to sites. There are two restrooms in the campground and one in the day-use area.

Recreating in Lake St. Catherine State Park
